CURTIN LINK

INTEGRATED ADVICE FOR BUSINESS AND THE COMMUNITY

Curtin Link is an innovative service connecting students from Curtin Business School and Curtin Law School with the community. Through Curtin Link non-profit organisations, social enterprises, small businesses and start-ups can receive integrated advisory services and project support on a range of business, legal and taxation issues.

Curtin Link builds on the successful activities of the John Curtin Law Clinic and Curtin Tax Clinic, which have enabled our students to assist small businesses and taxpayers to resolve legal disputes and taxation matters. With guidance and mentoring from qualified and experienced supervisors, Curtin Link enables postgraduate and final year undergraduate students to undertake real world projects and offer advice services and project solutions to business and community partners.

Community and business partners and clients gain access to the knowledge, skills and enthusiasm of Curtin students, while also helping to develop the next generation of professional leaders by providing our students with meaningful, real world experience.

Curtin Link is based at the Curtin Graduate School of Business at 78 Murray Street in the Perth CBD.

Examples of advice and project support available through Curtin Link include:

- Law (e.g. incorporation of a legal entity, drafting and refining a corporate constitution)
- Taxation (e.g. taxation advice, Deductible Gift Recipient status)
- Marketing (e.g. marketing plan)
- Accounting and Finance
- Property Development and Valuation
- Information Systems and Information Technology
- Management and Business Development
- Logistics and Supply Chain Management
