Curtin Library

18 July 2024

GRASP: Graduate Research Advanced Skills Program

Student scenario

- Working towards Milestone 1
- Struggling with academic writing
- In data collection/analysis phase
- Need structure to get work done, or feel isolated
- Post M1 and would like to write 20,000 words in 3 days

Support available

Research proposal workshops (M1)

Research writing series, individual academic writing consultations

Research methods workshops

Shut Up & Work

Thesis Boot Camps

For more information: bit.ly/curtin-GRASP

Expert Searching

Conduct a literature review, systematic review or scoping review

Book an individual [expert searching consultation](#)

Help with a search strategy, or locate discipline specific information or resources

Visit the [Searching and Literature review](#) guides in the Research Toolkit

Locate examples of past Theses

Visit our [Thesis Guide](#)

Obtain a resource not held by the Curtin Library

Place a document delivery request, or Submit a [recommendation to purchase](#)

For more information: bit.ly/researchtoolkit-searching

Publishing

You need to identify quality journals to publish in

You would like to publish open access and avoid Article Processing Charges (APCs)

You've been invited to publish in a journal, but are unsure if it is predatory

You need any other publishing help

Copyright

Student scenario

Support available

Copyright sounds scary and intimidating...

Book an appointment to chat with Lydia.

I don't have to deal with copyright, do I?

You do, especially if you're planning to use someone else's work. But it's not hard if you plan ahead.

What do I have to do to deposit my thesis into espace?

Go to the [espace guide](#) and find all the information you need

Where can I learn more about copyright?

Take the [Copyright for HDR Students online training module](#).

For more information: bit.ly/curtincopyright-HDR

Research Data Management

You are working
towards
Milestone 1

[Data Management
Plan](#)

You have data

[Back it up!](#)
(or risk a redo)

You want to know
where to store
your data

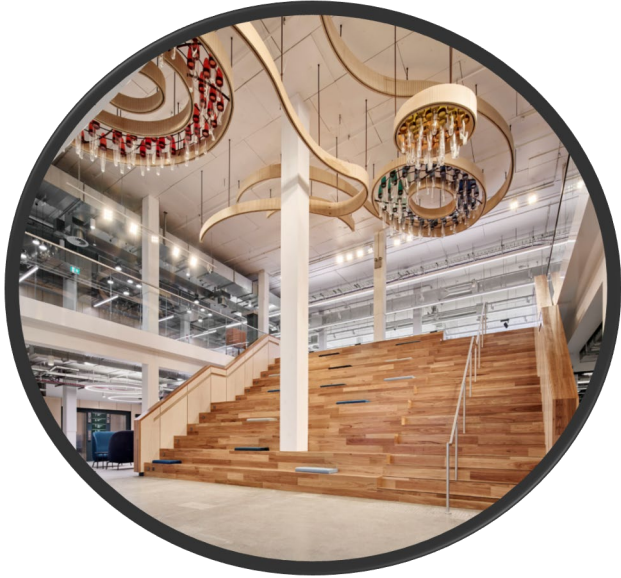

[Research data
storage explorer](#)

You want to make
your data open to
improve research
impact and meet
publication
requirements

[Curtin Research
Data Collection](#)
